

WEST END BUSINESS AIR QUALITY ACTION AWARDS

SUPPORTED BY THE MAYOR OF LONDON

The West End Business Air Quality Action Awards are here to recognise the efforts that local businesses are making to reduce local air pollution. All businesses are welcome to apply for awards in the following categories:

Emission Reduction (NOx/PM)

For organisations that have delivered measurable reductions in their emissions either from their building; local fleet; or through their supply chain.

Best Collaborator

An award for businesses that have shared best practice, improved an existing solution, partnered with other businesses or communicated with their neighbours to deliver improvements to air quality. This category acknowledges that local air is a shared resource and our cumulative actions will make the most significant impact to improve it.

Greenest Building

For landowners or joint landowner/occupier efforts to green their buildings to provide better indoor/outdoor realm.
